National Honey Month

September is National Honey Month, and in celebration, we've rounded up 10 honey-related experiences from around North America, from spa treatments to sweet treats. Did you know that a bee must visit 2 million flowers to make a pound of honey? That's roughly equivalent to 55,000 miles of flying!

Honey Harvest Weekends at Carmel Valley Ranch

Carmel Valley Ranch, a stunning getaway near charming Carmel-by-the-Sea in California's Santa Lucia Mountains, treat their resident bees as honored guests -- guests that work hard to produce a tasty ingredient for use around the property. For National Honey Month, the resort will be hosting Honey Harvest Weekends, where guests can meet the 60,000 resident bees and taste test honey from around Carmel Valley.
